

YOU'LL DISCOVER
US ALMOST
EVERYWHERE.

STARTING WITH A, LIKE AUTOMOBILE ...

Since 1983 Seeberger high-quality tube products "Made in Germany" come in lengths ranging from 2 to 500 mm, almost any diameter and wall thickness or even as solid material. The technical options are as many and diverse as the conceivable applications. You will find us on any road – in almost every vehicle.

... ENDING WITH Z, LIKE ZONE OF LIVING.

We make tube products for the following sectors of industry: machine building, construction, plastics, electrical and medical technology, cosmetics, automobiles, aeronautic and astronautic technology. We meet you every day – by way of door handles, windows, furniture, lights, toys, and many more.

WE CAN DO MORE THAN CUT TUBES. WE CUT DOWN ON YOUR COST.

By a consequent concentration on our core competences we have advanced to become the specialist in the cutting, burr removal and processing of tubes. This gives us a lead in know-how and effectiveness. You benefit by being able to economise on hours needed for design and tool manufacture. Systematic investments in state-of-the-art machinery plus the commitment to an intelligent cost management system provide cost-effective solutions for all Seeberger customers.

WE CUT YOUR COST.

WE CUT TUBES DOWN TO ANY SPECIFIED DIMENSION. WE GO 'ALL THE WAY'.

THE WIDEST RANGE OF DIMENSIONS

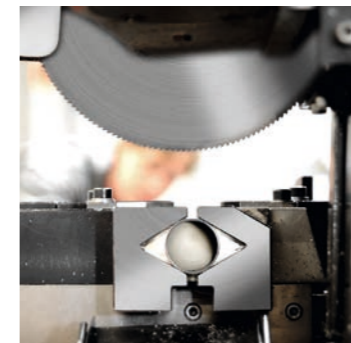

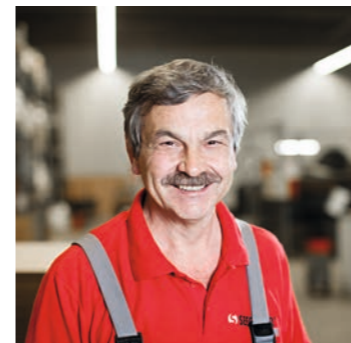

Seeberger has been processing product lengths from 2 to 500 mm with diameters ranging from 1 to 105 mm having a wall-thickness from 0.2 mm up to solid material. The use of automated precision saws guarantees edges, which are free of burr, and tolerances down to ± 0.05 mm.

ALL MATERIALS CAN BE PROCESSED

Our production lines incorporate the latest technological advances. They have been laid out to process very different materials, e.g. steel, stainless steel, aluminium, copper, and brass.

*When we talk about quality, we make this our mission. Our team stands for high competence and a full commitment to quality. **Every single order is processed responding to your demands and requirements.** A certified Quality Management System has been installed to control our high quality. Initial sample reports complying with VDA or PPAP are a matter of course.*

YOUR SUCCESS IS OUR MISSION

We attend to your needs from the very beginning. Competent consulting is our assurance that your demands and requirements will be realised – in a friendly way, quickly and flexibly. This guarantees success for both partners. You always make the right choice when you send us your request for quotation. Jointly with you we will engineer attractive technical solutions. Our highly motivated team is ready to meet your expectations in a way that you will be highly satisfied with our performance.

COMMITMENT

It has been demonstrated again and again that schedule effectiveness, reliability and compliance with agreements are the principal building blocks for the success of a project. This is why we keep our promises. Our customers may rely on this.

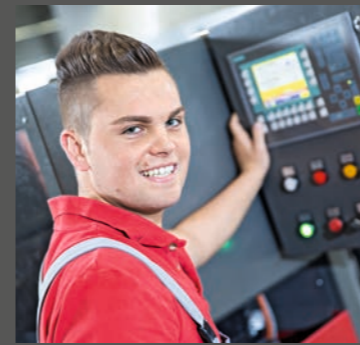

SEEBERGER PRODUCES TOP QUALITY TUBES. YOU CAN RELY ON OUR EXPERTISE.

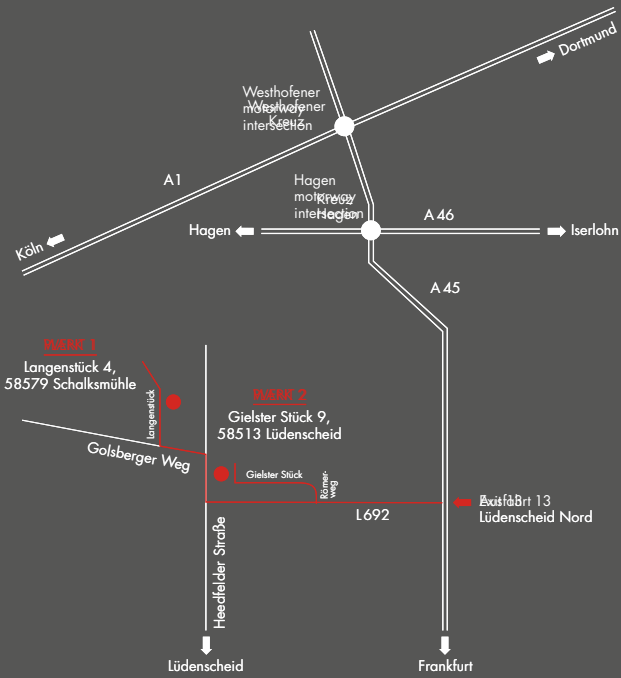

We operate with foresight. This makes us reliable. Our tube products are made in best quality of materials and workmanship. Our competitive team complies with your requirements. Short delays of delivery are a standard to us.

Our express service is available to you on request. We are familiar with the requirements of the automotive industry, e.g. Just-In-Time delivery plus emergency stocks.

A PARTNERSHIP THAT WILL CONVINCe YOU

Since 1983 high-quality tube products "Made in Germany" come from Seeberger. Our family-managed business has always been a personal and competent partner to contact for our customers. Mutual trust and reliability have formed the basis to cooperate as good partners. We strive to expand our position as a sound and independent business from now on by way of improving our performance continuously. We work with a good sense of responsibility and cost-effectiveness. This will provide for reliability and continuity in your planning.

YOU WILL FIND US EASILY.

*Come to see us. Convince yourself of our performance.
Our mission is the build-up of good customer relations in a spirit of partnership.
We are prepared to respond to your requests in no time and with flexibility.*
